Black (Anodized) Frames with Frosted Acrylic.*

MODERN ALUMINUM AND GLASS GARAGE DOORS,
FOR AN EFFORTLESSLY CLEAN LOOK.

YOUR #1 GARAGE DOOR AUTHORITY SINCE 1973

ABOUT THE COLLECTION

PRODUCT OVERVIEW

The Cambridge Collection is designed with architects, contractors, and homeowners in mind, offering a sleek, modern aesthetic with precision-engineered performance. The minimalist frame and advanced section seal elevate a home's exterior with a contemporary touch.

Breaking away from traditional grid-like window patterns, the Cambridge features slim horizontal windows and minimal vertical stiles, creating wide, unobstructed views and maximizing natural light. Beyond the garage, its versatile design allows it to function as an indoor loft partition or a stylish solarium enclosure, seamlessly blending form and function.

Built for durability and efficiency, the Cambridge Collection enhances modern architecture while delivering long-lasting strength and performance.

DOOR CONSTRUCTION

The Cambridge Collection offers a durable, low-maintenance solution, featuring 2-1/8" commercial-grade aluminum frames with customizable panel options. Choose from glass, alternative glazing materials, or solid aluminum panels to match your style and needs.

For added energy efficiency and strength, doors are available with or without polystyrene insulation, helping to reduce heat transfer while enhancing durability.

POLYURETHANE
INSULATION

NON-INSULATED

STANDARD CONSTRUCTION FEATURES

- Replaceable vinyl bottom weather seal in a rust-resistant aluminum retainer helps keep out air and water.
- Integral section joint seal for further reduction of air and water infiltration.
- Built-in reinforcing fin provides increased strength and longevity. Included on all Cambridge doors wider than 14'. Standard doors 12' and under do not use a reinforcing fin. Usage on custom and WindCode® doors may vary.
- Heavy-duty steel ball bearing rollers with nylon tires provide quiet operation.

INTELLICORE® INSULATION UPGRADE

INCREASES R-VALUE UP TO 3.8/U-FACTOR 0.86*

** Depending on glaze and panel selection.*

Intellicore is a proprietary polyurethane foam that is injected into a garage door, expanding to fill the entire structure. The result is a door with incredible strength, energy efficiency, and durability.

SUPERIOR WEATHER SEALS

Our signature full-perimeter weather sealing system ensures your garage door will stand the test of time.

The weather seal edge banding prevents water from penetrating any of the door's sides, including along the top and bottom. Superior weather seals is included in every door we sell, an integral part of every Garage Headquarters installation experience.
